

Important Updates to Citi Cash Back Card

Please be informed that with effect from 15 May 2019, the issuance of bonus cash back for dining and grocery transactions on the Citi Cash Back Card will be determined by the following Merchant Category Codes (MCCs).

Dining: MCC 5811 (Caterers), MCC 5812 (Eating Places, Restaurants), MCC 5814 (Fast Food Restaurants)
Grocery: MCC 5411 (Grocery Stores, Supermarkets)

Please note that any dining and grocery transactions classified under the MCCs not listed above will not qualify for bonus cash back. The MCC of a merchant is determined by the business classification of that merchant by the merchant's acquiring bank. Citibank does not determine the merchant's MCC classification. For more details, please refer to www.citibank.com.sg/cashbackfaq.

In connection with the foregoing, the Citi Cash Back Visa/Mastercard Cardmember's Agreement and relevant communication on bonus cash back will be updated accordingly.
